Noted by [initials]

Daily Staff Meeting

Monday, 14 May 1951

Reber reported that Millikan would like to postpone IAC discussion of his NSCID for one week. Mr. Jackson suggested that Millikan try to make himself available this week.

Reber reported that he had had a session with O/NE on requirements and that they did not believe they fitted into the requirements picture. After discussion it was suggested that perhaps O/NE should be required to have one officer charged with responsibility for developing requirements.
